### FEDERAL PELL GRANTS

The federal Pell Grant is the cornerstone of a student's financial aid package at the University of Illinois. Pell eligibility often triggers eligibility for additional state and institutional aid, including the Monetary Award Program (MAP) grant, the University of Illinois tuition grant, and student financial aid offered by our three universities.

### ADDITIONAL POINTS/KEY ACTIONS

- The University of Illinois' Board of Trustees adopted a policy in January 2011 that seeks to hold tuition increases for undergraduate students to the rate of inflation. In fall 2020, after five years of consecutive freeze in tuition for resident undergraduates, entering students will see an increase of 1.8%, however the system is offsetting the small increase with financial aid for entering resident undergraduates.
- Since fall 2004, the University of Illinois has implemented the Guaranteed Tuition Program, which guarantees that each undergraduate cohort has an unchanged tuition rate for four years.
